In the Drawings

Please replace the sheet showing Fig. 10 with the accompanying replacement sheet  
in which numeral 10 has been changed to 12.

Navarro

#### REMARKS

It is noted that the application is in condition for allowance except for a normal of formal matters, as follows.

The Examiner objected to the drawings because of the inconsistent use of numeral 10 in the drawings, namely that in Fig. 10 where numeral 10 is incorrectly used to designate the "present invention folded" whereas the correct designation should be 12. Accordingly, a replacement sheet accompanies this amendment to make this correction.

It is noted that in some figures numeral 10 is used to designate the invention either partially unfolded or partially folded. It is believed that since there is no separate numeral for the "partial" status, but that the specification is otherwise clear as to the structure, etc., no further changes in the drawings would be required.

The specification was objected to because of a number of informalities which this amendment corrects.

The Examiner noted some informalities in claims 1 and 2 which have been corrected.

The Examiner is requested to call the undersigned or Mr. Kroll if further changes are required to obtain allowance of the application.

A favorable action is solicited.

Respectfully submitted,
